

With our **Certified QR Labels** affixed by manufacturers, distributors or in the field to assets on a job site, a Smartphone camera can query, locate and instantly update individual asset location and status information in real-time. Job site assets can be constantly inventoried and reported on in real-time to all appropriate stakeholders using our individualized "Connect Pages".

48 in. x 80 in. 10-Lite Clear Wood Pine Prehung Interior French Door

- Conveniently pre-hung to speed up installation time
- Clear glass-design allows for natural light to flow through
- Unfinished and ready to paint or stain to your color choice

Use Case: Construction employee checks out this door for installation. Connect page will retrieve the information from an Autodesk diagram, mark asset as being installed and prompt for comments on asset.

Use Case: Foreman inspects this door against inventory and validate part number using the Autodesk diagram information.
